SUMMARY

Entry-level Software Developer skilled in JavaScript, Java, and cross-platform coding with a knack for problem solving and collaborating with cross-functional teams to implement user-friendly and system reliable Web Applications.

EDUCATION

B.Tech Dronacharya Group of Institutions (Oct'21-Aug'25)
Computer Science and Engineering(AKTU) 81% (SGPA:8.5)

Laxmi Public School, New Delhi 12th - 91% (2021)
10+2 with PCM and Computer Science (CBSE) 10th - 92% (2019)

SKILLS

Programming Languages	JavaScript, Java, C/C++, Python , PHP
Development Skills	HTML, CSS, Node.js, Express.js, React.js
Databases	MySQL, MongoDB , PostgreSQL
Others	Git, Github, Bootstrap, Tailwind

PROJECTS

WANDERLUST (Node.js, MongoDB, React.js)

- 1) Developed a platform for short-term lodging rentals including vacation homes, apartments, homestays, and hotels.
- 2) Built user authentication, property listings, booking system, messaging, reviews, and ratings features and ensured cross-platform compatibility.
- 3) Integrated booking confirmation emails to notify users and also incorporated payment gateways using PayPal for secure transactions.
- 4) Implemented responsive front-end using HTML, CSS, and JavaScript frameworks and tools like github for CI/CD.

CYBER CROCS (React.js)

- 1) Led the development of a cyber security-enhanced Customer Relationship Management website.
- 2) It provides security and data protection professional services and solutions to enhance Cyber System Security.

DEPILL (HTML, CSS, JavaScript)

- 1) Created a static website in a hackathon aimed at self-identifying mental health status of individuals.
- 2) This deals with the patients suffering through depression and suggesting them hospitals and doctors nearby.

PUBLICATION

[1] A unique approach to determine the output waveform of the clipper circuit and verification using KVL and LTspice. In 2022 2nd International Conference on Optimization Techniques in Engineering and Technology Engineering (ICOTET), 2022.

CERTIFICATIONS

JavaScript - Coursera
AWS Cloud Practitioner - Amazon Web Services

LEADERSHIP

Event Manager at the [Google Developer Students Club](#) with over 600+ students and faculty mentors. Actively involved in organising coding contests, virtual tech sessions on google technologies, gaming contests, and more alongside leading a core team of 14 members.
